Action taken report of the institution on Feedback of Stakeholders

The overall rating towards the curriculum is good. However, it's been decided to focus more on internships, assignments and socio-cultural activities for better experiential learning. This report outlines the following plans to address the concerns in order to enhance the overall effectiveness of the B.Ed. programme:

Plan of Action	Action taken
To enhance both theoretical and practical learning experiences, Faculty members will be encouraged to adopt innovative teaching methods. They have to provide opportunities that focus on problem solving, critical thinking and creativity.	Done
Student teachers will be encouraged to enroll for self-study courses.	Done
Student teachers will be encouraged to participate in socio-cultural activities. Community service will be encouraged to build character and confidence.	Done
Student teachers will be encouraged to integrate values into lesson planning.	Done
Educational and Field trips will be given priority to foster social responsibility and teamwork.	Done
Student Mentoring System will be strengthened.	Done
Students will be encouraged and guided to write	Done

articles for college magazine.	
Guidance and counseling committee will be introduced.	Done

These reflect institutional commitment to address the concerns for continuous improvement and effectiveness of the B.Ed. program. By implementing these initiatives, a supportive learning environment will foster student-teachers with the knowledge, skills, and competencies necessary for success in their future careers. This initiative will continue to monitor feedback approach and to ensure that the B.Ed. program remains responsive to the evolving needs of students and the education sector.
